

VolunteerConnector for Volunteers

VolunteerConnector is a free platform for volunteers to explore and apply to relevant and interesting volunteer opportunities across Saskatchewan.

Volunteers don't have to create profiles to see what postings are live in their community. When an individual lands on the VolunteerConnector website, they will see all the active postings in their community. Volunteers can make an account to have access to the '**Volunteer Dashboard**' to directly tailor their search to better match their interests and skills.

* The VolunteerConnector Dashboard provides volunteers with:

- ✓ Free access to find local volunteer opportunities that match your interests and skills.
- ✓ A dashboard for tracking opportunities, placements, and applications.
- ✓ Micro-volunteering opportunities for youth and those on the go.
- ✓ Direct volunteer-to-organization connections.
- ✓ The option to make a profile that populates in applications when applying for positions.
- ✓ The ability to keep track of the organizations and positions you applied for.
- ✓ The ability to see your schedule and roles you are committed to and track volunteer hours.
- ✓ The option to follow causes and organizations you care about to be notified when new positions are posted.

The screenshot displays the VolunteerConnector website interface. At the top, the logo "VolunteerConnector" is on the left, and "Log Out" is on the right. Below the logo is a teal navigation bar with four items: "Browse Opportunities", "Browse Organizations", "Volunteer Dashboard" (circled in red with a red asterisk), and "Regional Partners Resources". The main content area features a "Home" section with "Your Profile" and a "FIND A POSITION:" section with links for "Causes", "Organizations", "Searches", and "Applications". A central illustration shows a bear and a raccoon holding "WELCOME" signs. To the right, a "Welcome back, Angela" message is displayed, followed by a paragraph: "This dashboard is your new home base for managing your volunteering. We have lots of new features coming soon, including volunteer scheduling." At the bottom, there are three red buttons: "Follow some Organizations", "Follow some Causes", and "Follow some Searches", each with a white star icon.
